

PAYAL KAWALE

ASPIRING ARTIFICIAL INTELLIGENCE ENGINEER

+91 72769 98972

kawalepayal81@gmail.com

Mumbai , India

PROFESSIONAL SUMMARY

Motivated Internet of Things (IoT) engineering student with programming knowledge in Python, C, C++, and Java, and a strong interest in Artificial Intelligence and intelligent systems. Known for strong problem-solving ability, quick learning, and collaborative teamwork. Actively involved in organizations such as EWT, NSS, ISTE, IEI, and Green Club, demonstrating leadership, community engagement, and adaptability while continuously developing technical skills through AI-focused projects.

SKILLS

- Programming: Python, C, C++, Java
- Area of Interest: Artificial Intelligence, IoT
- Tools: Canva
- Soft Skills: Problem Solving, Fast Learning, Teamwork
- Time-management
- Active Listening
- Adaptability
- Analytical
- Critical Thinking

PROJECTS

AI Chatbot using Python

- Developed a basic chatbot using Python to simulate conversation with predefined responses.
- Implemented simple NLP logic for query recognition.
- GitHub: github.com/payalkawale1216/AI-Projects

PROJECTS [CONTINUE]

Image Classification Model

- Built a machine learning model using Python and TensorFlow to classify handwritten digits.
- Achieved accurate predictions using training datasets.
- GitHub: github.com/payalkawale1216/AI-Projects

Movie Recommendation System

- Designed a recommendation system using Python and similarity algorithms.
- Suggests movies based on user input preferences.
- GitHub: github.com/payalkawale1216/AI-Projects

POSITIONS OF RESPONSIBILITY

Working Committee Member — Extension Work Team (EWT)

Volunteer — National Service Scheme (NSS)

Student Member — Indian Society for Technical Education |
Institution of Engineers (India) | Green Club

EDUCATION

Bachelor of Engineering (B.E.), Internet of Things (IoT)

University of Mumbai, India

Relevant Coursework: Programming in C/C++, Python, Embedded Systems, IoT Architecture, Computer Networks, Artificial Intelligence Fundamentals
